Disclosure Related to Business Enterprises Owned and Controlled by Socially and Economically Disadvantaged Individuals (SEDI-Owned Businesses)

This transaction is supported with funding provided through the State Small Business Credit Initiative (SSBCI), a federal program that supports small business lending and investment programs in states, the District of Columbia, territories, and Tribal governments (collectively known as participating jurisdictions). SSBCI programs are designed to expand access to capital, promote economic resiliency, and create new jobs and economic opportunity. SSBCI provides funding for participating jurisdictions to support businesses owned and controlled by socially and economically disadvantaged individuals (SEDI-owned businesses).¹ This certification provides documentation that an SSBCI loan or investment supported a SEDI-owned business. The information collected from this certification can only be used for purposes of the SSBCI program and must not be used for any other purposes (e.g., marketing, sale to third parties). The information collected must also not be used in a manner that violates any applicable anti-discrimination laws, including, but not limited to, the laws specified in Section IX.b of the Capital Program Policy Guidelines (Compliance with Civil Rights Requirements).

¹ SSBCI funds count toward fulfilling the “expended for” requirement for the \$1.5 billion SEDI allocation and toward qualifying for initial eligible amounts under the \$1.0 billion SEDI incentive allocation if the SSBCI funds have been expended for loans, investments, or other credit or equity support to any of the four groups of businesses set forth in Section IV.a of the SSBCI Capital Program Policy Guidelines. While a participating jurisdiction may reasonably identify group (4) businesses (i.e., those located in Community Development Financial Institution (CDFI) Investment Areas) based on businesses’ addresses from the relevant loan, investment, and credit or equity support applications, certification is required with regard to groups (1) through (3).
